Introduction

The Specialised Product department at Numatic International has now been in operation for a period of 19 years, during this time we have been able to offer a service to our many customers for “bespoke” products of many different shapes and sizes, that are able to work in a multitude of “specialist environments”. Our focus and dedication has led to a range of products that give outstanding results every time.

This year our catalogue has been changed, each product has been placed into individual categories to make individual selection far easier with detailed information for each product, there is even a list of optional upgrades offered, enabling you to customise each product to suit your individual requirements.

All of our specialised products are now colour coded and this is presented throughout the guide, dry pick up products are coded red. Hazardous products are coded yellow and all wet pick up products are coded blue.

We hope you enjoy our “new look” catalogue and look forward to hearing from you soon.

NVDB 900 Dry Pick Up Bowling Green Vacuum

Description

Great looks, easy manoeuvrability combined with power to match are just three of the reasons that make the NVDB Indoor Bowling vacuum such a success on the bowling green. The vacuum is equally at home when used to clean an indoor Tennis Court and is capable of cleaning large areas with relative ease.

The vacuum is constructed using “Structof foam” giving unrivalled strength in a lightweight product. The power head is also constructed of “Structof foam” and utilises two “Twinflo” vacuum motors giving outstanding power performance.

Mobility is also an important aspect when cleaning, something made easier by our “Twin Wheeled” carriage system and in line triple castors.

A fixed floor tool sited on the rear of the unit, makes cleaning an easy one step operation, further enhanced by our unique pivoting handle.

A vacuum that’s guaranteed to “bowl” you over every time.

WVDB 900 Wet Pick Up Bowling Green Vacuum

Description

The 'revolutionary' WVBD 900 is without doubt the perfect cleaning companion for use when cleaning "outdoor" bowling greens and tennis courts. The multipurpose design of the vacuum ensures perfect results every time. From vacuum cleaning the early morning dew through to "blow drying" the green ready for play, we are sure you will be impressed.

The vacuum is constructed, using "Structof foam" giving unrivalled strength combined with a lightweight finish. When it comes to power, the vacuum utilises two "Twinflo" bypass motors giving high power results that enable a deep clean or blow dry with ease. Mobility is also an important aspect when cleaning, something made easier by our "Twin Wheeled" carriage system and in line triple castors. The vacuum can also be used as a leaf blower/collector when used with the optional extra "leaf kit". With so many possible cleaning applications, we are sure you will agree, the WVBD 900 is the "jack" of all trades when used on the bowling green or tennis court.
