

CHEMICLEAN PRODUCTS

TECHNICAL INFORMATION SHEET

CONQUEROR

Heavy Duty Bactericidal Cleaner Concentrate

CONQUEROR is the perfect cleaner and degreaser for use in abattoirs, meat and poultry farms, and the food industry combining cleaning strength with a powerful bactericide. Ideal for food preparation equipment, floors, walls, drains, soak-ways and most other hard surfaces. Readily dissolves animal fats, grease, blood, protein and burnt-on carbon, leaving the surface bacteria-free

Features

Economical

Built-in Water Softeners

Bactericidal

Effective

Biodegradable

Directions for Use

General Hard Surface Cleaning: **CONQUEROR** should be used at a dilution of 10:1 with water for heavy soiling, 30:1 with water for medium soiling, 60:1 with water for light soiling. Spray onto the surface, agitate if necessary and rinse off with water

Soak Tank: **CONQUEROR** can be diluted in a tank for the cleaning of heavily contaminated items. Simply leave to soak until soiling is softened, then rinse clean with water

Steam Cleaning: For use through a steam cleaner, dilute **CONQUEROR** 50:50 with water and dispense into the solution tank. Feed this solution at varying settings from between 2% and 10% depending on the type and degree of contamination to be removed

Drains: Use **CONQUEROR** regularly for the prevention of grease build-up in drains, gutters and soak-ways

N.B: Care should be taken to minimise contact time when using on aluminium surfaces

Benefits

CONQUEROR is highly concentrated and can be diluted with up to 60 parts of hot or cold water

CONQUEROR is equally effective on hard or soft water

CONQUEROR contains a quaternary ammonium biocide for a broad spectrum of bactericidal action, has an anti-microbial value of 180. Diluted at 180:1, will kill 99.99% of E. Coli ATCC 11229 in 10 minutes at 20 degrees centigrade. (By independent test laboratory)

Specifically formulated to dissolve animal fats, grease, proteins and blood without the need for hard scrubbing

Will not affect the natural bacteria found on sewage systems
