TECHNICAL INFORMATION SHEET

DISPERSE

Tar and Oil Stain Remover

DISPERSE is a blend of hydrocarbon solvents and biodegradable emulsifiers, especially formulated to remove Tar, Oil and Grease, including oil stains from concrete floors and block paving.

Features **Versatile**

Benefits

DISPERSE is an effective oil stain remover from concrete floors and block paving. Also removes tar from most hard surfaces including vehicle paintwork. It can also be used as a general purpose and soak tank degreaser for cleaning engines, gearboxes and other metal components, **DISPERSE** particularly useful where pollution considerations are paramount.

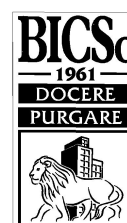

Biodegradable

DISPERSE is fully biodegradable in both sea and fresh water of any hardness

Directions for Use

DISPERSE is used as supplied and can be applied by mop, brush or sprayer, then rinse with water after a suitable contact time. Also, can be used in a soak tank immersing components for a short period or overnight soak according to the degree of soiling. Safe on all metals including alloys.
