# Aerosol Product Range

<b>Air Freshener (Pot Pourri Fragrance)</b>	Air Freshener that removes stale and offensive odours
<b>Aluminium High Temperature Lube</b>	Gives superior lubrication to threads, providing maximum torque, minimising friction, eliminates pitting, rusting and seizure. Also repairs damaged threads.
<b>Barrier Cream</b>	Universal Barrier that can be used in various working conditions, protecting hands from water, oil, solvents, powders etc.
<b>Copper High Temperature Lubricant</b>	Copper High Temperature Anti-Seize Lubricant, can be used in a wide variety of applications, including bolts, studs, flanges, drilling equipment, dies, hinge pins, axles, pulleys and brake adjusters
<b>Dashboard Trimsheen</b>	Provides gloss finish on all Dashboards and vinyl car trims in one operation.
<b>Glass &amp; Mirror Cleaner</b>	Cleans and polishes glass, windows and mirrors.
<b>Heavy Duty Degreaser</b>	Fast evaporating degreaser that removes Oil, Grease, and General grime from most surfaces including plastics.
<b>High Wax Polish</b>	A high gloss wax polish for all wood and vinyl finishes.
<b>Satin Black Paint</b>	Quick drying Satin Finish. Ideal for touching up scratches on automotive components.
<b>Penetrating Oil</b>	Can be used for a variety of maintenance tasks, such as freeing rusted nuts and bolts, freeing jammed lock mechanisms and separating metal connecting parts, which have become oxidised.
<b>P.T.F.E. Graphite Dry Lubricant</b>	High pressure graphite lubricant for the Automotive and Plant Hire Industries.
<b>Silicone Spray (Heavy Duty)</b>	Dry Lubricant and Mould Release Agent. Also provides gloss finish on all Dashboards and vinyl car trims in one operation
<b>Silver Wheel Paint</b>	Enhances Vehicle Wheels.
<b>VDU Cleaner</b>	Cleans computers, keyboards, TV and monitor screens, telephones, photostat and fax machines, printers and many other items of office equipment.

**All Products in Large 400ml Aerosols**

## TECHNICAL INFORMATION SHEET

### APPLE FRESH

### PERFUMED TOILET CLEANER AND MAINTAINER

**APPLE FRESH** cleans and disinfects toilets to leave surfaces hygienically clean with a pleasant Apple fragrance. **APPLE FRESH** is safe to use on all surfaces, including stainless steel.

#### Features

#### Benefits

#### Effective

Thick **APPLE FRESH** clings to surfaces removing dirt and algae leaving toilets and urinals sparkling clean.

#### Powerful Disinfectant

**APPLE FRESH** has an anti-microbial value of greater than 65. (BS 6471)

#### Deodorises

**APPLE FRESH** has a disinfecting action, together with Apple fragrance, that eliminates odours, leaving toilets and washrooms with a pleasant fresh fragrance.

#### Environment Friendly

**APPLE FRESH** is safe to use on all surfaces and will not affect the natural bacteria found in sewage systems or septic tanks

#### Versatile

Effective on both ceramic and stainless steel toilets

#### Directions for use

Simply direct under rim and squeeze or apply product evenly around the bowl. Leave for at least 20 minutes or overnight then flush clean

## TECHNICAL INFORMATION SHEET

### BD 500

### BACTERICIDAL NEUTRAL DETERGENT

**BD 500** is a concentrated bactericidal Pot and Dishwash detergent and multi-purpose cleaner. **BD 500** is recommended for use where hygiene considerations are paramount, it is widely used throughout the Catering and Food Processing industries

#### Features

**Bactericidal**

**Biodegradable**

**Economical**

**Skin Conditioners**

**Effective**

**Streak-Free Rinsing**

**Safe**

**Bactericidal Activity**

#### Benefits

**BD 500** contains a powerful bactericide, which is active against a broad spectrum of bacteria

**BD 500** does not affect the natural bacteria found in sewage systems, and is fully biodegradable in both hard and soft water areas

**BD 500** is concentrated, and can therefore be diluted with water

**BD 500** leaves hands soft

**BD 500** gives sparkling results

**BD 500** leaves dishes streak-free therefore, no need to use un-hygienic tea-towels

**BD 500** will not pollute drainage systems

**BD 500** contains a powerful bactericide, which is active against the following micro-organisms: Staphylococcus Aureus, Salmonella Typhi, Escherichia Coli, Pseudomonas Aeruginosa

#### Directions for use

**Dishwashing:** Dilute **BD 500** at a rate of up to 30 mls per 50 litres of **hot water**. **BD 500** will clean the greasiest kitchen utensils without streaking

**Walls, Floors and General cleaning:** Dilute **BD 500** up to 90 ml per 50 litres of hot water.

Depending on the degree of soiling, apply by mop or sponge. **BD 500** can be safely used on all hard surfaces

**PO BOX 2487**

## TECHNICAL INFORMATION SHEET

### BIO-CLENSER

#### Bactericidal Heavy Duty Cleaner and Degreaser

**BIO-CLENSER** is a specialised cleaner and degreaser which readily emulsifies animal fats, blood, protein, vegetable oils and general grime

**BIO-CLENSER** is suitable for a wide variety of cleaning operations, including worktops, floors and walls, and because of its non-tainting bactericidal properties it is particularly suitable for kitchen hygiene operations

#### Features

##### **Bactericidal**

#### Benefits

**BIO-CLENSER** contains a quaternary ammonium biocide, which is active against a broad spectrum of bacteria

##### **Biodegradable**

**BIO-CLENSER** is fully biodegradable in both hard soft water areas

##### **Economical**

**BIO-CLENSER** can be diluted with up to 30 parts water

##### **Effective**

**BIO-CLENSER** is specifically formulated to dissolve grease and grime without the need for hard scrubbing

##### **Un- Perfumed**

**BIO-CLENSER** leaves no taint or smell on surfaces

##### **Safe**

**BIO-CLENSER** is non-flammable and solvent-free

#### Bactericidal Activity

**BIO-CLENSER** is effective against both gram negative and gram positive bacteria

#### Micro Organism

Staphylococcus Aureus

#### Gram Reaction

Gram Positive

#### Occurrence

A major problem in cross infection in hospitals

Escherichia Coli

Gram Negative

Can be found on and dirty surfaces

Pseudomonas Aeruginosa

Gram Negative

Common in contaminated soil and water

**BIO-CLENSER** has an anti-microbial value of 120. When diluted with 120 parts of water.

**BIO-CLENSER** will kill 99.99% of E.Coli ATCC 11229 (by independent laboratory tests)

## TECHNICAL INFORMATION SHEET

### BIOSAN

#### Residue Sanitiser

**BIOSAN** is a powerful sterilising agent, which is particularly effective in killing bacteria in food processing areas. Although primarily a sterilising agent, **BIOSAN** has detergent qualities and can therefore be used to quickly and effectively clean and sterilise all hard surfaces

#### Features

##### **Versatile**

#### Benefits

**BIOSAN** has been specially formulated to give effective sterilisation for all hard surfaces in Food Plants, Food Delivery Vehicles, Food Shops, Abattoirs, Canteens, Kitchens, etc

##### **Powerful**

**BIOSAN** can be used down to 1% concentration

##### **Safe**

**BIOSAN** has a very low order of mammalian toxicity. Solutions of **BIOSAN** provide an odourless sterilising medium which is non-corrosive. **BIOSAN** contains no chlorinated phenols or available chlorine

#### Directions for Use

**Sterilisation:** Freshly cleaned surfaces can be completely sterilised either by immersing or swabbing with a 1% solution of **BIOSAN**. Surfaces may be rinsed with water after a contact time of up to 1 minute and allowed to dry

**Initial Hard Surface Cleansing:** Ideally, clean surfaces using **BIO-CLENS** as directed, however, for lightly soiled surfaces, dilute BIOSAN at a rate of 1% to 2% (1.5 oz to 3 oz per gallon) in hot water

## TECHNICAL INFORMATION SHEET

### BIOSPOT

#### EFFERVESCENT CHLORINE TABLETS

**BIOSPOT** Chlorine Tablets release a powerful disinfectant that will kill all Gram +ve and Gram -ve bacteria, viruses and spores. Each tablet releases a guaranteed minimum 1,000 parts per million available chlorine per 1 litre of water even after 3 years of storage of the tablet. Warm water and/or stirring will speed tablet dissolution time.

**BIOSPOT** is used for the general disinfection of small swimming baths, warm water baths or tanks, cooling towers, food preparation areas, floors, tiles, toilets, drains, sinks, mops and cloths etc. All can used for disinfection of areas of body spills i.e. vomit etc. **The safe alternative to liquid bleach.**

#### Typical in use dilutions:

1 tablet in:	Gives available chlorine of:	Typical uses:
100 ml	10,000 ppm	Body fluid spills
400 ml	2,500 ppm	Laboratory Jars
1.0 litre	1,000 ppm	General disinfection
2.5 litres	400 ppm	W.C's drains, sinks
5.0 litres	200 ppm	Food preparation areas
8.0 litres	125 ppm	Baby bottle sterilization
20.0 litres	50 ppm	Mops and cloths

**BIOSPOT** is packed in 6 tubs of 200 tablets per case and has a shelf life of 3 years.

## TECHNICAL INFORMATION SHEET

### EXTRA STRONG BLEACH

**STRONG CONCENTRATED EXTRA STRONG BLEACH** is a powerful hypochlorite disinfectant which kills all known germs and destroys unpleasant odours by oxidation. It can be used for general disinfection of drains, toilets, sinks and waste bins

#### Features

**Effective**

**Concentrated**

**Versatile**

**Biodegradable**

#### Benefits

Kills all known germs

Has an available chlorine content of 10%

May be used for all general purpose disinfecting and for drains, toilets, sinks and lavatories, as well as for de-staining and bleaching

Will not effect the natural bacteria found in sewage systems

#### Directions for Use

**Disinfection:** For toilet bowls, waste pipes and outdoor drains - use as supplied. For work surfaces - dilute 1 part with 100 parts water and then sponge, mop or spray the surface

**To remove stains from white fabric:** Dilute 30mls in 5 litres of water. Soak items for 5-15 minutes

**To bleach white fabric:** Dilute 10mls per 5 litres of water. Soak for up to 45 minutes

**N.B. Do not** use on coloureds, silk, wool or special finishes and do not allow undiluted bleach onto the fabric.

## TECHNICAL INFORMATION SHEET

### CITRUS DISINFECTANT

A powerful Q.A.C. based biocide blended with a pleasant citrus fragrance to disinfect and deodorise most surfaces

#### Features

**Powerful**

**Economical**

**Pleasant to Use**

**Biodegradable**

#### Benefits

Tested under B.S. 6424 (1984) to Grade Q.A.P. 100

Can be diluted with up to 100 parts for normal disinfection

The combination of bactericidal action and lemon fragrance kill objectionable odours and help maintain a healthy atmosphere

Has no harmful effects on sewage systems

#### Direction for Use

**Floors, Paintwork and Washable Surfaces:** Dilute with up to 100 parts water. Apply by spray or mop

**Linen and Towels:** Dilute at a rate of around 100 to one in the final rinse when laundering or soak in a sink or bucket before washing

**Disinfection and Odour Control:** For toilets, drains, refuse bins, sinks etc, pour or spray as supplied

## TECHNICAL INFORMATION SHEET

### CONQUEROR FOAM PLUS

#### Heavy Duty Bactericidal Cleaner

**CONQUEROR** is the perfect cleaner and degreaser for use in abattoirs, meat and poultry farms, and the food industry combining cleaning strength with a powerful bactericide. Ideal for food preparation equipment, floors, walls, drains, soak-ways and most other hard surfaces. Readily dissolves animal fats, grease, blood, protein and burnt-on carbon, leaving the surface bacteria-free

#### Features

##### **Economical**

#### Benefits

**CONQUEROR** is highly concentrated and can be diluted with up to 60 parts of hot or cold water

##### **Built-in Water Softeners**

**CONQUEROR** is equally effective on hard or soft water

##### **Bactericidal**

**CONQUEROR** contains Sodium Hypochlorite, a powerful disinfectant for removing bacteria from all hard surfaces.

##### **Effective**

Specifically formulated to dissolve animal fats, grease, proteins and blood without the need for hard scrubbing

##### **Biodegradable**

Will not affect the natural bacteria found on sewage systems

#### Directions for Use

**General Hard Surface Cleaning:** **CONQUEROR** should be used at a dilution of 10:1 with water for heavy soiling, 30:1 with water for medium soiling, 60:1 with water for light soiling. Spray onto the surface, agitate if necessary and rinse off with water

**Soak Tank:** **CONQUEROR** can be diluted in a tank for the cleaning of heavily contaminated items. Simply leave to soak until soiling is softened, then rinse clean with water

**Steam Cleaning:** For use through a steam cleaner, dilute **CONQUEROR** 50:50 with water and dispense into the solution tank. Feed this solution at varying settings from between 2% and 10% depending on the type and degree of contamination to be removed

**Drains:** Use **CONQUEROR** regularly for the prevention of grease build-up in drains, gutters and soak-ways

**N.B:** Care should be taken to minimise contact time when using on aluminium surfaces

## TECHNICAL INFORMATION SHEET

### OC14

#### OVEN CLEANER (Standard)

**OC14** is a blend of caustic alkalis and special surface-active agents, which combine to provide a powerful degreaser for removing baked-on deposits of fats, grease and oil from ovens, cooking utensils, deep fat fryers and other kitchen equipment.

**OC14** is available in liquid form in 500ml trigger sprayers or gel form packed in 5 litre containers

#### Features

##### **Versatile**

#### Benefits

**OC14** is ideal for the cleaning of all hot ovens, grills and hot plates. **OC14** is effective on vitreous enamel, cast iron, copper, brass and glass and most similar materials used for cooking purposes

##### **Easy to Use**

Simply spray **OC14** onto a warm or hot surface and wipe with a soft, damp cloth to leave surface sparkling clean

##### **Fast Acting**

**OC14** is supplied as a cling-thick liquid which immediately activates on contact with the surface to be cleaned

##### **Effective**

**OC14** quickly penetrates and removes fats, grease and oil from dirty surfaces

#### Directions for use

**OC14** should be used as supplied, simply spray or sponge onto the surface. For best results, the surface should be preheated to approximately 60 degree C (140 degree F) Leave the **OC14** for up to 10 minutes before rinsing using clean water. For stubborn deposits, repeat the application

**N.B.** **ALWAYS** use rubber gloves when handling **OC14**. **DO NOT** use **OC14** on aluminium surfaces.

## TECHNICAL INFORMATION SHEET

### CP837

### BIOLOGICAL LAUNDRY POWDER

A concentrated biological laundry detergent for all washing machines and fabrics. Contains Enzymes. CP837 is specially suitable for the requirements of Hospitals, Nursing Homes and the Catering Trade

#### Features

**Economical**

**Effective**

**Low Lather**

**Biodegradable**

#### Benefits

Only a small amount is necessary per wash

**CP837** will remove heavy soiling, protein, blood and other stains

Ideal for front loading washing machines

Will not affect the natural bacteria found in sewage systems

#### Directions for use

Use at the rate of 5/10gms per kg of wash load, depending on the local hardness of water of wash. Excellent results may be obtained at lower temperatures of 30-50 Deg C

## TECHNICAL INFORMATION SHEET

### DIAMOND

#### Concentrated Laundry Liquid

A concentrated viscous liquid with a pleasant floral fragrance, designed to produce effective cleaning power in low and high temperature washes on all soiling

#### Features

**Economical**

**Effective**

**Fragrance**

**Biodegradable**

#### Benefits

Only a small amount is necessary per wash

**DIAMOND** will remove soiling in low and high temperature washes

**DIAMOND** has a floral perfume leaving wash with a clean fresh fragrance

Will not affect the natural bacteria found in sewage systems

#### Directions for Use

Use at 10-20ml per kg dry weight of wash, depending on the degree of soiling. Alternatively can be used through a Laundry Dosing Unit. Ask your Representative for details

## TECHNICAL INFORMATION SHEET

### DIGESTER

#### Grease and Odour Control Drain Cleaner

**DIGESTER** is a specially selected blend of non-toxic natural microbes, which digest oils, fats, greases and other organic matter blocking drainage systems. This can then be flushed away, leaving grease free with no odour problems.

**DIGESTER** is demonstrably more effective than conventional drain cleaners as a bio-film is formed which produces a continuous and renewable supply of highly active enzymes for fat and grease degradation. This bio-film adheres to the drainage system walls and is highly resistant to cleaning fluids and disinfectant, thus providing a longer lasting protection than caustic products which have a minimal contact time.

Regular application of **DIGESTER** will: -

- ?? **Eliminate blockages**
- ?? Eliminate odours
- ?? Eliminate the use of hazardous chemicals
- ?? Eliminate the need for expensive rodding and jetting of drains
- ?? Doesn't effective drainage walls
- ?? Significantly reduces B.O.D's (Biological Oxygen Demand) and C.O.D.'s (Chemical Oxygen Demand), thereby reducing the amount of processing required at Sewage Plants.

#### Directions for Use

**Manual Applications:** For the first week of treatment, apply an initial dose of 250ml of **DIGESTER** per day to the drainage system, then flush through with 5 litres of warm water, followed by 150ml of **DIGESTER** per day in the second week and thereafter at the end of the working day. The dose should be applied at the head of the drainage system (i.e. sink) or immediately before the main entry of the organic waste. **Automatic Dosing** should be timed for 1 hour after kitchen shut down and injected directly into the line.

## TECHNICAL INFORMATION SHEET

### MERLIN "S"

### DISHWASH POWDER

**MERLIN "S" DISHWASH POWDER** is a bactericidal automatic dishwashing powder which is effective both in hard and soft water. Ideal for use where a hand-fed detergent is required

#### Features

**Concentrated**

**Bactericidal**

**Versatile**

#### Benefits

Only 2-6 grams pre litre is required to remove the toughest soil and stains from most types of tableware

Will sterilise dishes and cutlery even at low temperatures, therefore ideal for hotels, restaurants and hospitals

Effective in both hard and soft water. Can be used in solution to clean and completely disinfect hard surfaces. Non-foaming formulation allows effective C.I.P. cleaning

#### Directions for use

**Dishwashing:** Simply dispense **MERLIN "S" DISHWASHER POWDER** into the wash tank at a rate of 2-6 grams per litre of water depending on the degree of water hardness and soiling using the measure provided

**Hard Surface Cleaning & Disinfection:** Dissolve up to 20 grams of **MERLIN "S" DISHWASH POWDER** per litre of hot water (50-60 Deg. C.) Mop surface before rinsing with clean water

**N.B. Do not** use on aluminium or galvanised surfaces

## TECHNICAL INFORMATION SHEET

### MERLIN "TW"

### AUTOMATIC TRAYWASHING DETERGENT

A concentrated liquid detergent for machine tray washing, pot washing and utensil washing, suitable for use on most types of materials and can be dispensed through a Dosing System

#### Features

##### **Economical**

#### Benefits

Only a small amount of **MERLIN "TW"** is necessary to clean a large volume of trays and racks

##### **Effective**

**MERLIN "TW"** will remove all types of heavy soiling such as grease, fat, blood and other proteinaceous matter

##### **Versatile**

Contains powerful softeners which enhance detergency and enable it to be used in hard or soft water conditions

##### **Easy to use**

**MERLIN "TW"** is pumped automatically into the tray washing or pot washing machine through a dosing system

##### **Safe**

Suitable for use on most types of trays and crates including plastic, aluminium and wood

##### **Biodegradable**

Will not affect the natural bacteria found in sewage systems

#### Directions for use

**MERLIN "TW"** can be used with automatic dosing equipment. Immerse the detergent suction tube into the **MERLIN** drum. The equipment will then automatically control the amount of detergent which is fed into the tray washing machine. The exact proportion of detergent to water should be adjusted to suit your own particular requirements.

## TECHNICAL INFORMATION SHEET

### ORACLE GLASS CLEANER

Special blend of surfactants and grease removers with the addition of vinegar, to clean and polish glass surfaces and mirrors leaving a sparkling streak-free finish

#### Features

**Non-Aerosol**

**Smear-free**

**Economical**

#### Benefits

Safe to use as it is packed in non-pressurised trigger spray Contains 100% active product. No propellants present

Wipe away to leave the glass sparkling clean and streak-free

Only a small amount of **Oracle Glass Cleaner** is needed to clean the dirtiest of surfaces

### Directions for use

Hold spray bottle approximately 4" from the surface to be cleaned and spray on before wiping off

### Specification

**Appearance**

**Colour**

**Odour**

**S.G.(20 deg C) < 0 deg C**

Clear liquid

Pale Straw

Citrus

### Health & Safety

Essentially a non-hazardous product. Avoid spraying in the eyes. Wash splashes from the skin and eyes with water. Should irritation persist seek medical attention. Keep out of reach of children

**N.B. Do not** mix with any other chemicals

## TECHNICAL INFORMATION SHEET

### PINE DISINFECTANT

Is a concentrated disinfectant with a high dilution rate and can be used for a variety of cleaning and disinfecting operations, including floors and walls, drains, sinks and toilets. It contains a blend of phenolic bactericides, solubilised in natural soap and pine oil

#### Features

##### **Powerful**

#### Benefits

Is formulated to BS5197 (1976) Group PB and has a minimum Rideal-Walker coefficient of 6

##### **Economical**

Can be diluted with up to 100 parts water for normal disinfection

##### **Pleasant to use**

The natural pine oil contained in this disinfectant kills objectionable odours and helps maintain a healthy atmosphere in all areas

##### **Residual Activity**

The powerful phenolic bactericides continue to act in most circumstances for up to 24 hours, although for complete protection, regular disinfection is recommended

##### **Biodegradable**

Will not affect the natural bacteria found in sewage systems

### **Directions for use**

**Floors, Walls, Paintwork:** For cleaning and disinfecting floors, paintwork, tiles and most hard surfaces, dilute with up to 100 parts of water and apply by mop, spray or sponge. Simply wipe on and wipe off

**Linen and Towels:** Dilute 1:100 parts with water in the final rinse

**Air Purifier:** Dilute 1:100 parts with water and use through a one pint sprayer, will destroy airborne bacteria, leaving the atmosphere purified and fragrant

**Disinfection and Odour Control:** For toilets, washrooms, drains, sinks, rubbish heaps, refuse bins, pour or spray as supplied, depending on the degree of soiling and odour

## TECHNICAL INFORMATION SHEET

### QUARRY CLEAN

#### Concentrated Quarry Tile Floor Cleaner

**QUARRY CLEAN** combines caustic free alkalis, surfactants and chlorine releasing agents to enable the cleaning of quarry tiles, stone concrete and terrazzo floor surfaces. Also can be used on ceramic wall tiles. **QUARRY CLEAN** cleans and enhances the tile grouting to leave a new look finish.

#### Benefits

#### Features

ECONOMICAL

Dilutes with up to 60:1 with water.

SAFE

Safe to use on all types of quarry, terrazzo, stone and concrete surfaces.

VERSATILE

Can be applied manually or through a scrubber drier machine.

EFFECTIVE

Removes the heaviest build up of soiling in a single application.

#### DIRECTIONS FOR USE

Simply dilute **QUARRY CLEAN** with up to 60 parts of water depending on the degree of contamination. Mop, wipe or spray onto the surface, leave for up to 5 minutes before rinsing off with clean water.

For use through a scrubbing machine dilute up to 80:1 with water, apply using machine manufacturers instructions.

## TECHNICAL INFORMATION SHEET

### RINSE AID

#### RINSE ADDITIVE FOR AUTOMATIC DISHWASHING

**RINSE AID** is a blend of low foaming non-toxic detergents and alcohols, which ensure excellent wetting and draining properties

**RINSE AID** is injected into the final rinse water through the dosing system to speed up drying of crockery and leave a sparkling smear-free finish. Also acts as a foam dispersant in the machine wash tank

#### Features

**Concentrated**

**Effective**

**Versatile**

**Un-perfumed**

**Biodegradable**

#### Benefits

Very economical in use

Gives a sparkling smear-free finish to crockery and promotes rapid drying

Suitable for hard or soft water conditions

Leaves no taint or smell on washed items

Does not affect the natural bacteria found in sewage systems

#### Directions for use

**RINSE AID** must only be used with the automatic dosing equipment in combination with the **CHEMICLEAN** range of automatic dishwashing detergents. The amount of **RINSE AID** required will vary, depending on the type of dishwashing machine, but the correct amount will be pre-set on the Detergent Feed System. To obtain optimum performance from **RINSE AID** it is important that the temperature of the rinse water is within the dishwashing machine manufacturer's limits, usually between 80 Deg. C. and 90 Deg. C.

## TECHNICAL INFORMATION SHEET

### SPA-CLENSE

#### CONCENTRATED TOILET DESCALER

**SPA-CLENSE CONCENTRATED TOILET DESCALER** combines highly active inorganic acids with wetting agents, resulting in a toilet cleaner which effectively de-scales, disinfects and deodorises in one simple operation

**SPA-CLENSE CONCENTRATED TOILET DESCALER** clings to surfaces removing scale and algae, eradicating odour-producing bacteria to leave toilets and urinals sparkling clean

#### Features

##### **Powerful**

##### **Bactericidal**

##### **De-odorises**

##### **Applicator**

##### **Biodegradable**

#### **Directions for use**

Simply spray onto areas to be cleaned, leave for a few minutes before rinsing off. Use daily to avoid scale build-up

**N.B.** Can cause discolouration on stainless steel surfaces

**PO BOX 2487**

### SPA-FRESH

#### TOILET CLEANER AND MAINTAINER

**SPA-FRESH** cleans and disinfects toilets to leave surfaces hygienically clean and fragrant  
**SPA-FRESH** is safe to use on all surfaces, including stainless steel.

#### Features

##### **Effective**

#### Benefits

Thick **SPA-FRESH** clings to surfaces removing dirt, limescale and algae leaving toilets and urinals sparkling clean.

##### **Powerful Disinfectant**

**SPA-FRESH** has an anti-microbial value of greater than 65. (BS 6471)

##### **Deodorises**

**SPA-FRESH** has a nordic pine fragrance and together with the disinfecting action, **SPA-FRESH** eliminates odours, leaving toilets and washrooms with a pleasant fresh fragrance.

##### **Environment Friendly**

**SPA-FRESH** is safe to use on all surfaces and will not affect the natural bacteria found in sewage systems or septic tanks

##### **Versatile**

Effective on both ceramic and stainless steel toilets

#### **Directions for use**

Simply direct under rim and squeeze or apply product evenly around the bowl. Leave for at least 20 minutes or overnight then flush clean

### SPARKLE

#### NEUTRAL DISHWASH DETERGENT

**SPARKLE** combines a powerful blend of detergents with high levels of skin conditioning agents, which make it ideal for dish and pot washing as well as general hard surface cleaning

#### Features

**Biodegradable**

**Economical**

**Skin Conditioners**

**Perfume**

**Effective**

**Streak-free Rinsing**

#### Benefits

**SPARKLE** will not pollute drainage systems, fully biodegradable in both hard and soft water areas

**SPARKLE** is concentrated and can therefore be diluted with water

**SPARKLE** leaves hands soft

**SPARKLE** contains a pleasant citrus aroma

**SPARKLE** gives sparkling results

**SPARKLE** leaves dishes streak free, therefore no need to use unhygienic tea towel

#### Directions for use

**Dishwashing:** Dilute **SPARKLE** at a rate of up to 30 ml per 50 litre of hot water. **SPARKLE** will clean even the greasiest kitchen utensils which can then be drained without streaking

**Walls, Floors and General Cleaning:** Dilute **SPARKLE** at the rate of up 50:1(10ml to 5 litre) of hot water. Apply by mop or sponge, leave for up to 5 minutes, depending upon degrees of soiling, before rinsing off with clean water

### SPARTAN

#### HEAVY DUTY TRAFFIC FILM REMOVER

**SPARTAN** is a concentrated blend of detergents and sequestrants specifically formulated to remove traffic film, oil, grease and general soiling from all types of vehicles

#### Features

**Economical**

**Labour Saving**

**Safe**

**Versatile**

**Biodegradable**

#### Benefits

**SPARTAN** is highly concentrated and can be diluted with up to 200 parts of water

No mechanical agitation is required. Simply spray on and leave for adequate contact time before hosing away with clean water

**SPARTAN** is non-toxic, non-flammable and contains no glycol solvents. **SPARTAN** is safe on all metals and on most painted surfaces when used at recommended dilutions

**SPARTAN** has many cleaning applications including transport vehicles, cars, agricultural and dairy machinery, traffic signs etc

**SPARTAN** is fully biodegradable in both hard and soft water

#### Directions for use

**Light to medium soiling:** Apply **SPARTAN** onto the surface to be cleaned using a steam cleaner or pressure wash machine. **SPARTAN** should be diluted with up to 200 parts of water at the nozzle. Spray either hot or cold onto the surface, working from the bottom up and in from the edges to avoid streaks. Leave for adequate contact time before rinsing away with clean water

**Heavy Soiling:** To remove heavy oil and grease deposits and for chassis cleaning, use **SPARTAN** diluted with up to 50 parts of hot or cold water

### SPECTRUM

### CONCENTRATED NEUTRAL DETERGENT

**SPECTRUM** is a highly concentrated neutral detergent designed to be used with maximum economy for all hand dishwashing and general cleaning operations

#### Features

**Concentrated**

**Mild**

**Free Rinsing**

**Biodegradable**

#### Benefits

Economical in use

Contains skin conditioners to leave hands soft

No need to use unhygienic tea towels

Will not pollute drainage systems

#### **Directions for use**

**Hand Dishwashing:** Use **SPECTRUM** at a dilution of up to 14mls per 50 litres of hot water. **SPECTRUM** can clean even the dirtiest kitchen utensils, which can then be left to dry without streaking

**Walls, Floors & Paintwork:** **SPECTRUM** can be diluted with up to 10mls per 10 litres of hot water depending upon the degree of soiling. Apply by mop or sponge before rinsing away with water. **SPECTRUM** can be safely used on all workable surfaces

**Vehicle Cleaning:** Dilute **SPECTRUM** with up to 200 parts of water depending on degree of soiling. Brush or sponge surface with solution before rinsing away with clean water.

**SPECTRUM** is neutral and will not affect paintwork

### STAINLESS STEEL POLISH

Selective raw materials within the **STAINLESS STEEL POLISH** formulation enable the removal of oil, grease, finger marks and general grime from all types of stainless steel and polished aluminium surfaces, leaving a satin gloss finish.

#### BENEFITS

EASY TO USE	Use as supplied. Spray onto a cloth and wipe surface.
SAFE TO USE	Contains no harsh solvents or additives.
PROTECTIVE FILM	Leaves a gloss finish that aid future soil removal.
VERSATILE	Can be used on stainless steel polished aluminium and brass surfaces.

#### HOW TO USE

Use as supplied. Spray or pour **STAINLESS STEEL POLISH** onto a clean cloth. Wipe onto the surface and allow to air dry. Where the surface is used for food preparation, rinse with clean water before use.

#### SPECIFICATION

Appearance	Clear Liquid	S.G.	0.835 - 0.845
Colour	Pink	Storage Life	24 Months in original containers
Odour	Vanilla		

#### PACKAGING

500ml and 1 litre containers.

#### HEALTH AND SAFETY

Refer to relevant C.O.S.H.H. Data Sheet.

## TECHNICAL INFORMATION SHEET

### STERICLEAN

#### Bactericidal Liquid Hand Soap

**Stericlean** the complete hand and body liquid soap for use in all situations where mild safe cleansing is required, coupled with efficient bactericidal action. **Stericlean** is odourless and is ideal for use in situations where high standards of personal hygiene and where sterile conditions are required. **Stericlean** has particular applications where food is handled and in medical situations. **Stericlean** contains a high concentration of a bactericide, which is effective against both gram positive and gram-negative bacteria, yet is completely safe to use on the skin.

#### Features

##### **Bactericidal**

#### Benefits

**Stericlean** is a completely effective bactericidal cleaner, which protects the skin from re-infection between washes

##### **Economical**

Only a small amount is required to clean the hands

##### **Odourless**

**Stericlean** is odourless, elimination the risk of tainting, making it ideal for use in hospitals and food processing areas

##### **Lanolin Enriched**

Combats dryness and chapping, ideal for even the most sensitive skin

##### **Biodegradable**

**Stericlean** is fully biodegradable in both hard and soft water areas

#### Biocidal Activity

Efficiency of Stericlean against gram negative and gram positive bacteria:-

Micro-Organism	NCTC Contact Time for 100% Kill	Gram Reaction
Staphylococcus Aureus	4163 < 3 Minutes	Positive
Escherichia Coli	8196 < 5 Minutes	Negative
Pseudomonas Aeruginosa	6749 < 5 Minutes	Negative

**Stericlean** is also effective against the following micro-organisms:-

Salmonella sp	Proteus Mirabilis
Bacillus Subtilis	Streptococcus Faecalis

### STERISAN

#### Alcohol Hand Sanitiser

**Sterisan** is a liquid hand sanitiser combining high performance alcohol's and bactericides sterisan is suitable for use throughout the food industry as it is perfume free and non tainting

#### Features

##### **Bactericidal**

#### Benefits

Contains powerful bactericides and alcohol which are effective against both gram + and - bacteria

##### **Non tainting**

Contains no perfume, will not taint food

##### **Economical**

Only a small amount of product is required for each application

##### **Safe**

Contains no harsh chemicals

#### Directions for use

Apply Sterisan neat to hands, rub in well and allow to air dry

#### Biocidal Activity

**Sterisan** is effective against the following bacteria

Staphylococcus Aureus	Wound infections, boils and food poisoning
Escherichia Coli	Urinary tract and enteric diseases
Pseudomana Aeruginosa	Hospital acquired infections bedsores, infected burns etc
Salmonella Typhi	Food Poisoning

### TFR 92

#### Traffic Film Remover

TFR 92 is a concentrated blend of detergents and sequestrates, specifically formulated to remove traffic film, oil, grease and general soiling from all types of vehicles

#### Features

**Economical**

**Labour Saving**

**Safe**

**Versatile**

**Biodegradable**

#### Benefits

TFR 92 is highly concentrated and can be diluted with up to 100 parts of water

No mechanical agitation is required. Simply spray on and leave for adequate contact time before hosing away with clean water

TFR 92 is non-toxic, non-flammable and contains no glycol solvents. TFR 92 is safe on all metals and on most painted surfaces when used at recommended dilutions

TFR 92 has many cleaning applications including transport vehicles, cars, agricultural and dairy machinery, traffic signs etc

TFR 92 is fully biodegradable in both hard and soft water

#### Directions for use

**Light to Medium Soiling:** Apply TFR 92 onto the surface to be cleaned using a steam cleaner or pressure wash machine. TFR 92 should be diluted with up to 100 parts of water at the nozzle. Spray either hot or cold onto the surface, working from the bottom up and in from the edges to avoid streaks. Leave for adequate contact time before rinsing away with clean water

**Heavy Soiling:** To remove heavy oil and grease deposits and for chassis cleaning, use TFR 92 diluted with up to 30 parts of hot or cold water

### WIZARD

#### Multi-Purpose Cleaner

**WIZARD** is a versatile hard surface cleaner, which quickly cleans and disinfects all washable surfaces, including table and bench tops, walls, paintwork and tiled surfaces

#### Features

**Effective**

**Disinfectant**

**Versatile**

**Biodegradable**

#### Benefits

**WIZARD** emulsifies grease and grime leaving the surface spotlessly clean

**WIZARD** contains a powerful quaternary ammonium biocide for a broad-spectrum bactericidal kill. **WIZARD** has an anti-microbial value of 25 (BS 6471 :1984)

Can be used for the sanitising of most hard surfaces including walls, paintwork and worktops

Fully biodegradable in both hard and soft water areas

#### Directions for Use

Simply spray **WIZARD** onto the surface to be cleaned. Allow adequate contact time before wiping with a cloth to leave surface clean and fresh
