## TECHNICAL INFORMATION SHEET

### DRI-BRITE

#### Floor Polish

**DRI-BRITE** incorporates special acrylic polymers and waxes to give a tough durable dry, bright metalised polish on all non-porous surfaces

#### Features

**Hard Wearing**

#### Benefits

**DRI-BRITE** provides a tough scuff-resistant glossy finish which can withstand even very hard traffic

**Easy to Maintain**

The special acrylic polymers provide improved gloss and extended durability when the floor is regularly maintained using **BIO-CHEM**

**Easy to Remove**

**DRI-BRITE** is metalised for quick and safe removal by applying

**Versatile**

**DRI-BRITE** protects and enhances many surfaces including vinyl, thermoplastic, linoleum, sealed wood, sealed cork, rubber and pitch-mastic floors

**DRI-BRITE FLOOR POLISH** exceeds the compositional requirements of - PAS 9 (1974).

#### Directions for Use

**Initial Preparation:** Sweep the floor to remove dust and debris. If necessary, clean the floor using a neutral detergent. Remove old polish or wax using **VANISH 643**. Ensure the floor is clean and dry before applying **DRI-BRITE**

**Application:** Apply a thin even coat of **DRI-BRITE** using either a polishing mop or flat sponge mop. Allow this coat to dry completely before applying a second coat. The polish will dry to a high gloss finish in approximately one hour. The floor can then be opened to traffic
