TECHNICAL INFORMATION SHEET

HD 2000

Heavy Duty Degreaser

HD 2000 is a caustic based powder, which is effective for the heaviest cleaning and degreasing operations. Due to the high concentration of sequestrants present in **HD 2000** it can be used in both hard and soft water areas

Features

Powerful

Benefits

High concentration of caustic powder alkali enable **HD 2000** to remove the heaviest of grease and carbonised deposits

Versatile

HD 2000 is used in many engineering industries as a general heavy duty degreasing and cleaning powder to remove machine oil and grease. **HD 2000** can also be used in dairies, bakeries, poultry and meat establishments to carbonise, degrease and also for bottle washing

Non-Scaling

The powerful calcium sequestrants in **HD 2000** enable it to be used in hard water areas up to 500 ppm hardness

Biodegradable

HD 2000 is completely biodegradable

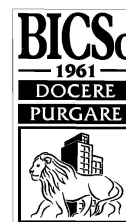

Directions for use

Heavy Duty Degreasing: Dissolve **HD 2000** with up to 10 parts of hot or cold water, apply by sprayer, clean using a mop or deck scrubber, or by dipping in an immersion tank

C.I.P. Cleaning: Dilute **HD 2000** with up to 100 parts of hot or cold water circulate at 65 degrees C for 15-20 minutes

NB: HD 2000 should not be allowed to come into contact with aluminium, zinc or their alloys
