

CHEMICLEAN PRODUCTS

TECHNICAL INFORMATION SHEET

MERLIN

AUTOMATIC DISHWASHING DETERGENT

A concentrated detergent dispensed through the dosing system for use in machine dishwashers. MERLIN will leave dishes and cutlery clean and sparkling

Features

Economical

Effective

Versatile

Easy to use

Biodegradable

Benefits

Only a small amount of **MERLIN** is necessary to clean a large volume of dishes

MERLIN will remove heavy soil and stains from most types of tableware

Contains powerful softeners which enhance detergency and enable it to be used in hard or soft water conditions

MERLIN is pumped automatically into the dishwashing machine through the dosing system

Will not affect the natural bacteria found in sewage systems

Directions for use

MERLIN must only be used with the automatic dosing equipment. Immerse the detergent suction tube into the **MERLIN** drum. The equipment will then automatically control the amount of detergent that is fed into the dishwashing machine. The exact proportion of detergent to water is adjustable to suit your own particular requirements, and this will be pre-set by your representative. For optimum results, the wash temperature should be between 60-65Deg.C

N.B. Do not use on aluminium or zinc alloys.
