TECHNICAL INFORMATION SHEET

RINSE AID

RINSE ADDITIVE FOR AUTOMATIC DISHWASHING

RINSE AID is a blend of low foaming non-toxic detergents and alcohols, which ensure excellent wetting and draining properties

RINSE AID is injected into the final rinse water through the dosing system to speed up drying of crockery and leave a sparkling smear-free finish. Also acts as a foam dispersant in the machine wash tank

Features

Concentrated

Effective

Versatile

Un-perfumed

Biodegradable

Benefits

Very economical in use

Gives a sparkling smear-free finish to crockery and promotes rapid drying

Suitable for hard or soft water conditions

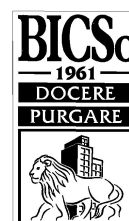

Leaves no taint or smell on washed items

Does not affect the natural bacteria found in sewage systems

Directions for use

RINSE AID must only be used with the automatic dosing equipment in combination with the **CHEMICLEAN** range of automatic dishwashing detergents. The amount of **RINSE AID** required will vary, depending on the type of dishwashing machine, but the correct amount will be pre-set on the Detergent Feed System. To obtain optimum performance from **RINSE AID** it is important that the temperature of the rinse water is within the dishwashing machine manufacturer's limits, usually between 80 Deg. C. and 90 Deg. C.
